

Full Stack Developer

Company: InnovateTech

Job Position: Full Stack Developer

InnovateTech is looking for a skilled Full Stack Developer to join our product development team. This position offers the opportunity to work on both frontend and backend technologies.

About the Role:

We need a Full Stack Developer who can handle end-to-end development of web applications. The candidate should be comfortable working with modern JavaScript frameworks and databases.

Key Requirements:

- Develop responsive user interfaces using React and JavaScript
- Build scalable backend services with Node.js and Express
- Design and implement database schemas using MongoDB
- Write clean, semantic HTML and CSS
- Implement TypeScript for type-safe development
- Use Git for version control and collaboration

Required Technical Skills:

- JavaScript, React, Node.js, MongoDB, Express, HTML, CSS, TypeScript, Git

Experience Required: 3-6 years of full stack development experience

Education: Bachelor's degree in Computer Science, Information Technology, or equivalent

Benefits:

- Health insurance and retirement plans
- Flexible working hours
- Learning and development budget
- Modern tech stack and tools
